

Biography

Dr Nesrine BOUJELBEN

Adresse professionnelle: Ecole Nationale d'Ingénieurs, Sfax BP "W", 3038, Sfax, Tunisia
Tel: (+216) 74 651040 – 44102687- 26872754 Fax: 74 404536

Engineer on georesource and environment

Assistant at National Engineering School of Sfax Tunisia

member of Association of solitary development of Sfax

Researcher on Laboratory of Water, Energy and environment

Membre du Comité d'Organisation du Congrès Méditerranéen : Ressources en eau dans le bassin méditerranéen WATMED 6, Sousse (Tunisie), Novembre 2012.

Membre du Comité Scientifique du Congrès Méditerranéen : Ressources en eau dans le bassin méditerranéen WATMED 6, Sousse (Tunisie), Novembre 2012.

Member of the National Organizing Committee International Conference in Integrated Management of Environment ICIME 2014 Hammamet - Tunisia

Member of the Scientific Committee of the International Conference in Integrated Management of Environment ICIME 2014 Hammamet - Tunisia

Reviewer in some international journals: Deswater, Hazardous materials, Environmental progress, chemical engineering journal...

Around 20 publication in water treatment and adsorption sciences and research.

Member of the National Organizing Committee International Conference in Integrated Management of Environment ICIME 2014 Hammamet - Tunisia

Member of the Scientific Committee of the International Conference in Integrated Management of Environment ICIME 2014 Hammamet - Tunisia

Reviewer in some international journals: Deswater, Hazardous materials, Environmental progress, chemical engineering journal...

Publications

N. Boujelben, J. Bouzid and Z. Elouear. Adsorption of nickel and copper onto naturally iron oxide coated sand from aqueous solutions: study in single and binary systems. journal of hazardous materials, 163 (2009) 376–382.

N. Boujelben, J. Bouzid, Z. Elouear . Studies of lead retention from aqueous solutions using iron-oxide-coated sorbents. Environmental Technology, 30, (7) (2009) 737–746.

N. Boujelben, J. Bouzid, Z. Elouear. Removal of lead from aqueous solutions using manganese-oxide-coated sorbents: characterization and kinetic study. *Adsorption Science and Technology*, 27 (2) (2009) .

N. Boujelben, J. Bouzid and Z. Elouear. Retention of nickel from aqueous solutions using iron oxide and manganese oxide coated sand: kinetic and thermodynamics studies. *Environmental Technology*, 31 (14) 2010.

N. Boujelben, M. Gouider, Z. Elouear, J. Bouzid, M. Feki et A. Montiel, « Retention of copper and nickel from aqueous solutions using manganese oxide-coated burned brick », *Environmental Progress & Sustainable Energy*, 31 (2012) 426-434.

N. Boujelben, J. Bouzid and M. Feki. Removal of phosphorus ions from aqueous solutions using manganese-oxide-coated sand and brick. *Desalination and Water Treatment* 52 (2014) 2282- 2292.

N. Boujelben, F. Bouhamed, K. Ayedi, Z. Elouear, J. Bouzid and M. Feki. Removal of copper from aqueous solution using Tunisian clay. *American Journal of Environmental Sciences*, (2015).

Z. Elouear, R. Ben Amor, J. Bouzid, **N. Boujelben**. Use of phosphate rock for the removal of Ni^{2+} from aqueous solutions: kinetic and thermodynamics studies. *Journal of Environmental Engineering*, 135 (2009) 259-265.

Z. Elouear, J. Bouzid, **N. Boujelben**, R. Ben Amor. Study of adsorbent derived from exhausted olive pomace for the removal of Pb^{2+} and Zn^{2+} from aqueous solutions. *Environmental Engineering Science*, 26 (4) (2009).

Z. Elouear, J. Bouzid, **N. Boujelben**. Removal of nickel and cadmium from aqueous solutions by sewage sludge ash: study in single and binary systems. *Environmental Technology*. (2009) 1-11.

Z. Elouear, J. Bouzid, **N. Boujelben**, A. Montiel. Chemical immobilization of lead, zinc and cadmium in contaminated soils using phosphate rock. 'Soil Science', 2010.

Sana Ghrab, **Nesrine Boujelbene**, Mounir Medhioub, Fakher Jamoussi. Chromium and nickel removal from industrial wastewater using Tunisian clay. *Desalination and Water Treatment*, (2013) 1- 8.
